

PRESS RELEASE

Dr. Michael Maher, P.Eng., President of the Canadian Council of Independent Laboratories (CCIL) and the Board of Directors, are pleased to announce the appointment of Mark R. Dettweiler, MBA, P.Eng., as the new Certification Program Manager. Effective August 1, 2001, Mark will take over the management of the Asphalt and Aggregate Laboratory and Technician Certification Programs. He will succeed Dr. John Dickson, who will maintain involvement with the programs as a Technical Consultant.

Mr. Dettweiler received a B.A.Sc. in Civil Engineering from the University of Waterloo in 1987 and an MBA focussing on Strategic Management and Marketing from Wilfrid Laurier

University in 1994. He is a Licensed Professional Engineer with Professional Engineers Ontario. Following a short period at the Ministry of Transportation Ontario, Mark joined Naylor Engineering Associates (then England Naylor Engineering) in Kitchener in 1988. He has held increasingly responsible roles there since that time, becoming a Partner in 1996, responsible for materials testing and inspection services, laboratory quality system development and geotechnical investigations. Mark has been a Director of CCIL and is Past Chair of the Geotechnical and Construction Materials Division of the Association.

CCIL is a professional association of independent consulting, inspection and testing firms, that fosters high standards, ethical business practices and technical excellence. CCIL has three active Divisions: Geotechnical and Construction Materials; Environmental and Analytical; and Conformity Assessment. CCIL runs a series of asphalt and aggregate laboratory and technician certification programs. There are currently 129 CCIL Certified Asphalt Laboratories and 185 CCIL Certified Aggregate Laboratories in Canada.
