

**NEW PESTICIDE TEST GROUPS: C-22, C-23, C-24 AND C-25**

**Attention: all member laboratories**

As we received an overwhelming number of applicants, we were able to renegotiate the contract with our supplier of these new samples. As a result, CAEAL is pleased to announce **Fee Reductions** for the 4 new test groups, to be shipped for the first time in **June 2002**. The benefit to labs is an average savings of **\$90.00** per sample set that is ordered.
